I am an accomplished and enthusiastic DevOps Engineer with 3+ years' leadership experience in operations, specializing in Terraform-based Infrastructure as Code (IaC). Recognized for my proactive nature and a persistent drive to excel, I've played a pivotal role as a key member of the core platform team at Airbiquity, contributing to the delivery of cutting-edge services for large-scale global clients. My expertise lies in being the subject matter expert (SME) for Terraform and Airbiquity's infrastructure, showcasing leadership qualities within both the SDP Platform and Global Operations teams.

EXPERIENCE

DevOps Engineer II
Airbiquity
Mar 2020 - Present

- Acted as a Subject Matter Expert (SME) on Terraform and ABQ Infrastructure, providing guidance and training to other DevOps engineers.
- Orchestrated the deployment and management of the company's infrastructure using Terraform and Infrastructure as Code (IaC) principles, enabling seamless provisioning of resources in AWS.
- Implemented AWS Organizations across all accounts, optimizing governance and resource sharing, resulting in improved operational efficiency and centralized management.
- Led initiatives to refactor legacy infrastructure code around CI/CD. This initiative resulted in a 50% reduction in development and deployment times while enhancing scalability and reliability.
- Spearheaded the refactoring of a critical project, focusing on optimizing automation strategies and reducing development and deployment cycles, reducing deployment time from 5 days to 4 hours.
- Developed and maintained automation scripts resulting in a 30% reduction in manual effort and a 25% increase in team productivity.
- Played a pivotal role in the development of Prowler, an open-source security tool, ensuring compliance with various security frameworks.
- Contributed to the development and maintenance of comprehensive documentation for system architecture, processes, and procedures.
- Mentored and trained junior team members in Terraform best practices, IaC methodologies, and modern infrastructure design principles, fostering a culture of knowledge sharing and skill development within the team.
- Implemented and designed robust security measures, including hardened OS configurations and secrets management, ensuring compliance with industry standards and significantly fortifying the company's infrastructure against potential threats. This effort led to a 30% decrease in security vulnerabilities.

Consultant/Developer
The Morning Blunt, a WordPress site
Oct 2018 - Oct 2018

- Advised and executed layout and design enhancements, significantly enriching user experience.
- Engineered a user-friendly navigation menu and layout, resulting in improved user interaction.
- Implemented a structured multi-page subjects approach, elevating readability and accessibility.
- Spearheaded SEO improvements, resulting in higher search engine rankings and increased organic traffic.
- Offered guidance for future post optimization.

Web Development Student
Coding Dojo
Apr 2018 - Jul 2018
Completed a 14-week intensive course to gain experience in web fundamentals and full stack development.
- Web Fundamentals (HTML; CSS; JavaScript; JQuery).
- Python (flask with MySQL; Django with SQLite; AJAX; API).
- MEAN (JavaScript; Node; Express; Angular; MongoDB/Mongoose; Socket.io; NPM).
- Java (SpringMVC with MySQL; Tomcat; JSP; JPA).

SKILLS
Terraform · Infrastructure as code (IaC) · Amazon Web Services (AWS) · Network Administration · Application Infrastructure Design · Cross-functional Team Leadership · Automation · Documentation · Linux · Cloud Computing · DevOps · Solution Architecture · System Administration · Cross-team Collaboration · Leadership · Visual Studio Code · Agile Methodologies · Network Troubleshooting · HCL · CI/CD · Gitlab / Github · Troubleshooting · Research · Jenkins · Ansible · Virtualization · Python · HTML · MySQL · Cascading Style Sheets (CSS) · JavaScript · Programming · Software Development · Java · CIS Benchmarks · DNS Management · Microsoft Office

EDUCATION
Coding Dojo Full Stack Developer, Computer Science
University of Washington Editing
Humboldt State University Theatre/Theater
